

# Giornate informative

12 febbraio 9.00 e 15.00

13 febbraio 9.00

Gentilmente invitati!

The background is a dark blue night sky with stars. In the foreground, there's a green hill with a white school building with a red roof. Various educational symbols are scattered around: a DNA double helix, a purple Erlenmeyer flask, a red pencil, a blue book with a pencil, a pair of blue scissors, a blue ruler, a blue hourglass, a brown clock tower with a French flag, a paintbrush, and several flags (Russian, Italian, British). The equation  $E=mc^2$  is written in the sky. The name 'Federico Marchi' is written in the bottom right corner.
